

Android 系列產品

Android 11.0 版(含)之後

1 開啟 Wi-Fi，並選擇無線網路訊號「eduroam」

2 於驗證畫面中：

2.1 EAP 方法選擇「PEAP」

階段 2 驗證選擇「MSCHAPV2」

CA 憑證選擇「使用系統憑證」

線上憑證狀態選擇「不進行驗證」

2.2 輸入網域：nccu.edu.tw

2.3 輸入帳號及密碼後，點選「連線」

3 連線成功

The screenshot shows the configuration interface for the 'eduroam' network on an Android device. The interface is dark-themed with light blue accents. It includes several dropdown menus for configuration: 'EAP 方法' (EAP Method) set to 'PEAP', '階段 2 驗證' (Phase 2 Authentication) set to 'MSCHAPV2', 'CA 憑證' (CA Certificate) set to '使用系統憑證' (Use System Certificate), and '線上憑證狀態' (Online Certificate Status) set to '不要驗證' (Do Not Verify). Below these are input fields for '網域' (Domain) with 'nccu.edu.tw', '身分' (Identity) with 'nuser@eduroam.nccu.edu.tw', and '密碼' (Password) with masked characters. There is a checkbox for '顯示密碼' (Show Password) which is currently unchecked. At the bottom, there is a '進階選項' (Advanced Options) section with a downward arrow, and two buttons: '取消' (Cancel) and '連線' (Connect).
